- ▶ Membre Events JE ESSECT · 2021–22

PROFILE

I don't just write code , I build experiences. Whether it's a real-time e-learning platform processing thousands of learners, a smart WooCommerce ecosystem, or a sleek management dashboard, I bring full-stack precision and product-minded energy to everything I ship. React, Angular, .NET, Azure,... . I speak the full stack fluently. Always learning. Always delivering.

EXPÉRIENCE

Freelance Developer

Jan 2026 – Présent

Self-employed

- WooCommerce Fitness Platform — Subscriptions, auto workout generation, personalised client dashboard (WordPress, PHP, CSS).
- Sustainable Agriculture Site — Showcasing local products with SEO-optimised responsive design (WordPress, JS, CSS).

OpusLAB

2024 – 2026

Multiple Roles · Summer 2024 – 2026

- **Full-Stack Engineer** (Final Year Internship, Feb–Aug 2025) — Built a modular e-learning SaaS with intelligent content adaptation, real-time learner tracking and microservices architecture (NestJS, Next.js, Redis, MongoDB). 3-dev SCRUM team · 2-week sprints.
- **Full-Stack Developer** (Academic Project, Feb–Aug 2025) — Complete e-learning platform: modern architecture, intuitive UI, rich content management (ReactJS, Node.js, MongoDB, Neo4j, Figma, Tailwind, SCRUM).
- **Frontend Developer** (Summer Internship, Summer 2024) — Designed and built the official OpusLAB website; improved SEO and UX (Next.js, Node.js, MongoDB).
- **Programming Instructor** (2025–2026) — Trained 20+ learners on Python, HTML/CSS, JavaScript and Algorithms; designed hands-on exercises and mini-projects.

Web Developer – Summer Internship

Jul 2024 – Aug 2024

TACIRCREA

- Developed a project-management app centralising 50+ innovative projects.
- Integrated Google Sheets synchronisation for automated reporting (ReactJS, Node.js, MongoDB, Neo4j, SCRUM).

Conseillère Service Client

2019

Téléperformance

- Customer service representative — inbound support.
